CHILDREN'S HOSPITAL HOSTS SPORTS MEDICINE LECTURE

The Massachusetts Amateur Sports Foundation and Children's Hospital team up for event

WOBURN, MA- The Division of Sports Medicine at Children's Hospital Boston and The Massachusetts Amateur Sports Foundation (MASF), present the 2nd annual Marino Lecture on Upper Extremity Injuries in the Pediatric and Adolescent Athlete. The Division of Sports Medicine at Children's Hospital specializes in evaluation and treatment for children, adolescents, and young adults who have endured sports-related orthopedic injuries. On Sunday, October 1, health professionals and students are invited to take part in the day of lectures and learning in the Enders Auditorium at Children's Hospital Boston.

Lecture topics range from Pediatric Sports Medicine: The Past, The Present, The Future, to more specific topics such as Injuries to the Young Elbow. Presenters include the director of the Division of Sports Medicine at Children's Hospital Boston, Lyle J. Micheli, MD. Dr. Micheli is one of the world's leading authorities on sports care and is acclaimed for his work in the field of pediatric and adolescent sports medicine.

By taking part in the Marino Lecture, health professionals and students will earn Continuing Education Units (CEU), which are required for re-certification. Certified and student trainers who volunteered at the 2006 Bay State Summer Games will be admitted into the lecture free of charge. Registration on October 1 is from 7:00am-7:45am, with the first lecture beginning at 8:00am. To register for the Marino Lecture, please visit <http://www.kidssportsmed.org/>. For more information contact Brian FitzGerald, BSN, ATC at (617) 355-6534 or brian.fitzgerald@childrens.harvard.edu.
